**BUREAU OF MILK POOLING  
POLICY AND PROCEDURAL LETTER NO. 16**

**NEW PRODUCER ENTRY**

Producers may not qualify for new producer entry if they have transferred or benefited from the transfer of production base and pool quota, either

- a. During the preceding five-year period, provided their transfer was made prior to January 1, 1977, or
- b. During the preceding ten-year period, provided the transfer was made on or after January 1, 1977.

Producers who voluntarily and irrevocably request the department, in writing, to terminate their rights in production base and pool quota held shall not have such action treated as a transfer subject to the above-named provisions. This does not relieve the producer from any restrictions which may apply to other transfers with which he has been involved.

Request for termination of production base and pool quota will only be honored as of the first of the month following receipt of the request.
